THE CASE FOR INVESTING IN SOUTH AFRICA: EXECUTIVE SUMMARY

ACCELERATING ECONOMIC GROWTH BY BUILDING PARTNERSHIPS
THE ECONOMY: SOUTH AFRICA'S ECONOMY OFFERS A STRONG VALUE PROPOSITION

South Africa's value proposition

- Africa's most industrialised economy. It is the region's principal manufacturing hub and a leading services destination.
- Highly diversified economic structure in terms of sectoral composition.
- One of the most open economies in the world (ratio of exports and imports to GDP exceeds 58%). Preferential access to numerous global markets.
- Endowed with an abundance of natural resources.
- An extensive and modern infrastructure network.
- Sophisticated banking sector with a major footprint in Africa. It is the continent's financial hub.
- Offers a supportive and growing ecosystem as a hub for innovation, technology and fintech.

THE ECONOMY: A LONG-TERM STRATEGIC PLAN FOCUSED ON INCLUSIVE GROWTH

- The National Development Plan: Vision 2030 (NDP), which was launched in 2012, constitutes South Africa's overarching policy framework.
- The NDP's comprehensive framework seeks to drive and entrench an inclusive economic growth agenda for South Africa.

The NDP's key priorities and socio-economic outcomes

THE ECONOMY: PRUDENT MACROECONOMIC POLICY MANAGEMENT

Prudent macroeconomic policy and management support South Africa’s attractiveness as an investment destination

Prudent fiscal and monetary policy regimes

- Fiscal policy balances development needs with fiscal sustainability. The National Treasury is committed to fiscal consolidation and prudent budgetary management.

- Independent and prudent monetary policy with the South African Reserve Bank (SARB) as its custodian. The SARB follows an inflation targeting regime (target band: 3% to 6%).

THE ECONOMY: DIVERSIFIED EXPORT SECTOR AND WIDE GLOBAL REACH

South Africa’s access to global markets is enhanced by its trade agreements (e.g. Southern African Development Community (SADC) Free Trade Area, European Union-SADC Economic Partnership Agreement, preferential access to the United States market under the African Growth and Opportunity Act (AGOA)).

THE ECONOMY: POISED FOR FASTER GROWTH

Largest and most advanced economy on the African continent …

- South Africa offers a unique combination of developed-world infrastructure and logistics networks, and a diversified emerging market (EM) economy offering low sectoral concentration risks.
- Its gross domestic product (GDP) of ZAR4.65-trillion (USD349.4-billion at the average USD/ZAR exchange rate for 2017) represents circa 16% of the African continent’s overall GDP.
- The composition of South Africa’s GDP is similar to those of developed economies – diversified and positioned to generate sustainable long-term returns on invested capital.
- While economic growth has been slow in recent years, the economy’s growth potential can be enhanced through policy certainty and consistency, as well as structural reforms, leading to higher levels of investment activity.

POLICY FRAMEWORK INCENTIVISES INVESTMENT TO STIMULATE GROWTH: INDUSTRIAL POLICY SUPPORT

**South Africa’s catalytic approach for investment**

- South Africa provides active support for investors by providing a wide range of incentives, including a comprehensive suite of tax incentives for investment in special economic zones (SEZs).
- Incentives offered by SEZs include:
  - Preferential 15% corporate tax rate;
  - Value-added tax (VAT) and customs duty suspension in customs-controlled areas;
  - Employment incentive;
  - Building allowance; and
  - Preferential land rental and utility rates.
- Investment in labour-absorbing industries is encouraged through various mechanisms.
- Financing assistance is provided by state-owned development finance institutions (DFIs) such as the Industrial Development Corporation (IDC), the Development Bank of Southern Africa (DBSA) and the Land Bank.

**Industrial policy framework**

- Comprehensive suite of financial grants, tax incentives and other forms of business support for investors.
- Policy and administrative reforms to stimulate investment.
- Incentives for investment in special economic zones.
- Attractive support and incentive system and financing by state-owned DFIs for industrial development and investment promotion.

POLICY FRAMEWORK INCENTIVISES INVESTMENT TO STIMULATE GROWTH: INTERVENTIONS TO ENSURE SOCIAL STABILITY

1. **Education**
   - The government has introduced free tertiary education to previously excluded students so as to build a strong, skilled and competent workforce.

2. **Health**
   - In addition to its large antiretroviral programme, the government is exploring a national health insurance programme to improve access to quality healthcare.

3. **Social services**
   - The government continues to support the elderly, children and other economically inactive groups through the social grants programme.

4. **Employment**
   - Strong partnerships exist between government, labour and business in initiatives aiming to create employment opportunities.

5. **Youth**
   - Several initiatives and programmes are in place to facilitate the assimilation of the youth into the mainstream economy.

6. **Women**
   - A clear policy framework and several programmes are in place to advance the economic empowerment of women.

7. **Entrepreneurship**
   - The government has established a dedicated small business development and support ministry that coordinates government-wide and targeted financial as well as non-financial support for the SMME sector.

**Government interventions are yielding positive results.**
POLICY FRAMEWORK INCENTIVISES INVESTMENT TO STIMULATE GROWTH: ECONOMIC TRANSFORMATION AND REFORM

Drivers of change …

The key driver for economic transformation and the reform agenda is an urgent need for greater economic inclusion (that is, to narrow the gap between the rich and poor while further diversifying the economy).

<td>Africa has 60% of the world’s uncultivated arable land, with value-adding opportunities in the food processing sector; it has abundant water resources for energy generation, irrigation and potable water.</td>
</tr>
<tr>
<td>Mining and minerals beneficiation</td>
<td>Africa is a major player in producing various mineral resources such as platinum, chromium, diamonds, gold, bauxite, cobalt, copper, phosphate and uranium. The continent has almost 8% of the world’s oil reserves. Its enviable resource endowment provides vast opportunities for investment in mining and minerals beneficiation.</td>
</tr>
<tr>
<td>Hydrocarbons, particularly natural gas</td>
<td>Large offshore and onshore gas reserve discoveries in, for example, Mozambique and Tanzania present huge development opportunities for energy generation, among others.</td>
</tr>

The African Continental Free Trade Area (AfCFTA) will bring together 55 African countries with a combined population of more than one billion people and a GDP of USD 2.2-trillion.</td>
</tr>
</tbody>
</table>
- South Africa has the most developed, diversified, technologically advanced and industrially integrated economy on the African continent.
- The country remains one of the preferred investment destinations in Africa and is also an important gateway for markets and other business opportunities throughout the continent.
- The South African economy has become increasingly diversified over the years, thereby reducing its sectoral concentration risks, particularly in mining. This has unlocked a diverse range of high-yield investment opportunities, predominantly but not exclusively in sectors with high export propensities.
- The success of many domestic industries in export markets is indicative of South Africa's inherent global competitiveness.
- The economy boasts an extensive and modern infrastructure network, which is being expanded further as a massive investment programme is rolled out by the public sector. Together with various other forms of industrial support from the South African government and other public sector institutions, this provides an attractive pull factor for investors.
- The South African economy is poised to achieve a higher growth trajectory. Recent political developments have been widely welcomed, resulting in a clear recovery in business, investor and consumer sentiment.
- Confidence in the South African government's ability to address structural impediments, including the achievement of greater policy coherence, consistency and certainty, as well as its focus on entrenching a business-friendly and investment-supportive environment, will attract investor interest and increase capital spending, from both domestic and foreign sources, in the domestic economy.
- These developments, alongside a substantially improved global economic outlook, augur well for South Africa's very open economy, with significant catalytic ramifications for investment prospects across a wide variety of sectors.
